Position paper: United States

Security Council (UNSC) - Lisbon Atlantic MUN

Topic A: The situation in the Sahel. The delegation of United States recognises the urgency of this question and the work the committee has already done on it. United States supports a measured approach grounded in international law, and will work with every delegation that shares that aim.

Topic B: Maritime security in the Gulf of Guinea. United States believes regional organisations must lead, with the United Nations providing coordination, funding and independent monitoring. The delegation will propose clear reporting duties and a review after two years.

United States looks forward to constructive debate and to a resolution that the whole committee can support.
